

H₂O-US4

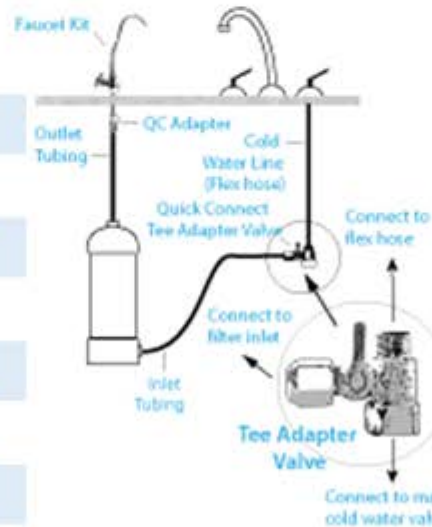

Product Overview

The H₂O US4 is a high capacity undersink water filter designed to connect to a separate long-reach faucet. The filter uses an advanced proprietary replaceable cartridge with granular coconut shell carbon (GAC) and KDF 55 process media to reduce chlorine, organic volatile compounds (VOC) and other contaminants responsible for taste, appearance and odor that may be present in municipally supplied water.

Product Highlights

- Sealed construction unit with 35,000 gallon capacity
- Multiple stage filtration KDF® / GAC Filter Media
- 5-stage filtration and purification system
- Installation kit includes 6 feet of tubing (3/8" outside diameter), long-reach faucet, fittings and adapters
- Bacteriostatic media: prevents bacteria growth (algae, fungi)
- Available inline for direct connection to faucet
- Improves taste and color, eliminates odor
- Reduces most EPA-listed contaminants
- Includes prorated warranty

Max Capacity	35,000 gal (132,490 L)
Recommended Flow	1.0 to 2.0 gpm (3.79 to 7.57 lpm)
Unit Height	17.25" (43.82 cm) including fitting
Unit Width	5" diameter (12.7 cm)
Unit Box Dimensions	18" x 7" x 6" (45.72 x 17.78 x 15.24 cm)
Unit Shipping Weight	10 lbs (4.54 kg)
Packing	6 per master case
Master Dimensions	21" x 18" x 13" (53.34 x 45.72 x 33 cm)
Master Case Weight	60 lbs (27.2 kg)

Installation kit includes 6 feet of tubing (1/4" outside diameter, long-reach faucet, fittings and adapters
